DATE MAILED: 01/28/2004

Please find below and/or attached an Office communication concerning this application or proceeding.

**DETAILED ACTION**

***Drawings***

The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they do not include the following reference sign(s) mentioned in the *done* description: work lining (25), outside face (25), inside face (26). A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

This application is in condition for allowance except for the following formal matters:

*done* **Claim 7** is missing,

*OK* **Claims 8-17** are dependent from claim 7.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

***Allowable Subject Matter***

**Claims 1-6** are allowed.

The following is an examiner's statement of reasons for allowance: **The primary reason for allowance is that prior art does not teach a rotary kiln for processing a variety of materials in which the inner cylindrical surface of the kiln includes a contiguous insulating refractory lining comprised of annular abutting hollow bricks.**

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
